WILLIMANTIC CAMP GROUND.

Cottagers Already in the Grove—Recent Improvements.

During the past weeks many families have arrived and many improvements have been made. Tuesday Mr. Walters, the superintendent, and A. L. Sweet built a rockery in the park to beautify the grounds. Mr. Walters has given the grounds a final raking so that now they are very beautiful.

Boston's Magic Bean Bakers.

It seems that in baking beans Boston turns 16,000,000 quarts into 32,000,000 quarts, and the finished product is still admirably filling. The genius that can make two quarts of beans materialize where there was but one quart has mastered a great point in dietary science and political economy.

Generally.

Every little while the public gets greatly excited over the discovery of a poem by some dead poet who did not consider the thing worth being included in his collected works. Generally we find, in spite of the public's hurrah over the discovery, that the dead poet exercised pretty good judgment.

For Emergency Sickness.

Evidence of poisoning is often shown when a person in previous good health is suddenly taken sick with vomiting, prostration or other severe symptoms. Such cases demand the most immediate attention, so that only by removing the harmful substance or instantly rendering it harmless can the evil effects be warded off.

Man's Duty.

While we live we must be moving on. When we stop we begin to die. Rest is necessary, but only to renew our strength that we may pass on again. An anchor is useful for a ship, but anchoring is not a ship's business; it was built for sailing. A man is made for struggle and effort, not for ease and loafing.—Dr. Miller.

Make the Most of Everything.

A man who knows the world will not only make the most of everything he does know, but of many things he does not know, and will gain more credit by his adroit mode of hiding ignorance than the pedant by his awkward attempt to exhibit his erudition.—Colton.

Remedy for Hoarseness.

A simple remedy for hoarseness and an irritating "tickling" in the throat consists of making a gargle of an egg beaten to a froth and adding half a glass of warm, sweetened water. Drink this every little while, rather than all at once, as most men drink all liquids.

Keeping Accurate Accounts.

There are fewer reckoning days if housekeepers pay cash. If they persist in running accounts for groceries and other staples they should have a book and see to it that the right price is put down the minute anything is bought.

About Housecleaning.

High finance is making two shares of stock grow where but one grew before, but woman's crowning achievement while cleaning house is to leave two rocking chairs in the dark spot where one was never known before.—Detroit Free Press.

A decree has been published in Austria by which no one is allowed to refine raw oil or to sell petroleum in bulk.

The next concession obtained from the government. This is a measure against the Standard Oil.

JEWETT CITY

Milk Producers Win Out—Begin to Ship Milk Again—Accident.

The Thomica club met with Mrs. Charles E. Spicer on Wednesday.

After being off for a period of 33 days, a general return was made to the Boston milk car Wednesday morning by the farmers in this section, the strike having been settled and the farmers winning out by an increase on an average of seven cents per can for a can of 20 quarts. The new price will take effect from July 1, and will be in force for ten months. A little over 50 cans were put on Wednesday morning, against about 80 before the strike went on. The present shortage is due to a number who have gone in to the Jewett City creamery, and it is doubtful if they will return to the milk car.

While playing ball in the schoolyard Tuesday, Harold Jeffers dislocated his right arm.

Defective Logic.

"Of course, the greatest minds are sometimes wrong," said the charitable person. "Yes," answered Miss Cayenne, "but that fact should not encourage people who are always wrong to think they have great minds."

Tommy's Rebuke.

Small Tommy (after the slipper scene)—"Mamma, I'm glad I'm not a girl."

Mamma—"Why, Tommy?"

Small Tommy—"Cause I'd be ashamed to grow up and become a child beater."

Then the Soul Responds.

The sweetest music is not in oratorios, but in the human voice when it seeks from its instant life tones of tenderness, truth and courage.—Emerson.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years, was supposed to be incurable.

For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, proved that it was a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, and cures the disease. It cures the mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for circulars and testimonials.

Billy Kent for Congress.

So it seems that Billy Kent is finally to be sent to Congress. In the days before muckraking, and when the reform of civil government was an issue of small account except among a few theorists, Billy Kent (Yale, '87), a young man of large wealth, accepted an election as alderman
